ABOUT
LOG IN
Action-Oriented, Measurable Green Performance.
Arc helps you measure performance, make improvements and benchmark against other projects.
Discover Arc

LEED for Cities:

- ✓ Supports continuous progress toward a better city & a higher quality of life
- ✓ Helps a city set performance goals & implement strategies to reach those goals
- ✓ Tracks performance data to measure progress towards those goals
- ✓ Leverages a wide range of rating systems, standards, protocols & guidelines

THE BENEFITS:

- Demonstrate your city's commitment to sustainability, human health, economic prosperity & quality of life
- Educate residents & visitors on the importance of sustainability measures
- Support performance reporting and achievements at the city-scale
- Provide shared accessibility and continuity of data across teams and over time

THE BENEFITS:

- Meet your city’s CO2 emissions reduction targets & support your country in meeting its climate action goals
- Communicate your city's sustainability and quality of life performance consistently
- Identify policies that will reduce the impact & improve the performance of your city over time

FLEXIBLE & SCALABLE PLATFORM:

- The performance score uses 14 metrics related to energy & carbon, water, waste, transportation, education, prosperity, equitability, health & safety

- Arc can also measure data on 250+ quantitative & qualitative parameters, for more detailed evaluation

SCORING 1-100

- **City provides data across 5 categories to generate score:**

  - Energy
  - Water
  - Waste
  - Transportation
  - Human Experience

PERFORMANCE, SCORED.

Energy:	out of 33
Water:	out of 15
